

QBA PSYCHIC CALLS REGISTER

Notes for the Director: This register is not intended to infer any impropriety in psychic calls, or to deter psyching. It is intended to establish a central repository of the incidence of psyches, so that the frequency of psyches by particular partnerships can be ascertained. Partnerships with a record of frequent psyching are in danger of developing an implicit agreement, and need to be warned about this.

There is an obligation on the psycher to report his/her psyche. Failure to do so will be penalised as a breach of regulation. The Director is entitled to award an adjusted score of his own volition (he does not require a complaint from the opponents) if he considers that the psyche has been `fielded'. It is particularly important that any psyches where the Director has any doubt should be reported.
