**SUBSTITUTION**

Circumstances such as lateness, illness or unforeseen emergency will be managed by the Director with a view to maintaining the integrity of the event as far as possible.

Requests for a substitute will be made to the Director before the start of the event. The cause of the request will not be required.

Substitutions will not be permitted in 1-day pairs events nor in the final rounds of events with qualifying & final formats

In 2-day, 4-session pairs events, a pair may apply through the Director for a substitute for up to 1 session (or 25% of boards across the event whichever is greater).

A player may not be a substitute for more than one other player during an event.

For a congress event and emergency situation only, the Director may waive the above substitution requirements to maintain the integrity of the tournament, whilst considering the rights of the other contestants. All such substitutions must be reported to the Chairman, Tournament Committee.

For events graded by rank or which are age or gender specific, a substitute must meet the entry requirements of the event for the pair to remain eligible.
